WHOT

Who struck William Herry Patterson? Who it McCracked? Who is Mrs. Perry? Tha TO THE FLOWER & KITCHEN GARDEN FOR questions are of national interest, and an actious public locks in vain for answers to them. This, written by " Volunteer" for the Albany Times, will take that public by surprise :

" Mrs. Perry, a matrouly lady, early in the war left her home in Ohio, went to the Sharlwest, and during the emire war enacted the part that gave to Florence Ni, Lingale Lerworld-wide reputation. In general, triggets or regimental hospitals, she was the clustest of nurses. She stood over, pursed, and closed the eyes in death of Union and ' Replacites. And could the thousands of woulded and mideled soldiers whom she has ministered to will a mother's care be interroget d, they would god emphatic as urance that shy was one of the best and kindest women that ever fixed. The star ments going the rounds (for political cution) of ber having inflience at the White Buc, tra mendacious and vindictive. Mes. Pery never made but one request of the President, and that

It is not true that Government has he coulded ber great services in the way of a few or a ais nor basshe ever asked or received any thronor patronage from Congress; and it's a lad, that ought not, in a country loss that it is interisgence and deference to the six, to be used as a political lever to advance party interests, at the generación a Leviciación od w eno la recepta angel to the sich and dying soldier."

The ministering angel made one request of the President and that was desired her! It is not probable, from the character given the ministering angel by "Volunteer," that that request was an improper one and if it was not why was it decist? The ministering ongohas evilently been griceously wrong d, and is too modest to tell supposity about it -she lets concentinent, like a worm or sympething, grey on her damask cheek, and allows the sweetness of her record to waste itself upon the desert air. Let justice be done.

ATTEMPT TO BURN A VESTE -Au allement was made, yesterday moroing, to burn the schooner Crator, of this port at Williams' Whath. The fire was discovered about six o'clock in the morning, by the master and owner, Capt. Peleg W. Gibbs, be fore it had made much headway, and extinguished with a few bookets of water, without creating gereral slarm. Painters are at work on the vessel, and on leaving work Saturday night, they left their overalls in a berth on the ride of the cabin, and it was among these that the tire was set. The berth boards were burnt out, which was about all the damage done.

The vessel was locked up Saturday night, and the Captain and crow lodging at their homes until the vessed was ready for sea. Entrance was effected by means of breaking the

paddeck, secoring the cabin door, the hesp of which had been broken short off,

It will be remembered that this same vessel was on Bre a year ago last winter, on which occasion she was damaged to the extent of about one thousand dollars, which fire also occurred on a Morday morning, and at about the same hour. The origin of that fire was never satisfactorily account ed for.

It is calculated that each mill will inble; and the price is only \$1.50 for the illustrailed volume and \$1.25 for the plain.

These volumes are a continuation of the series of "Dismond" publications which are already familiar to our readers; and the lovers of Dickens' writings are so numerous that they will be heartily welcomed in a form at the same time beautiful and economical. The size of the books, which would ordinarily be an objection, is not so in this instance as the clear type makes the small volume a convenient handbook for fireside reading. We commend Dickens as the writer of fiction who e books may safely go into the hands of oll readers, with less hesitation than almost any other author of the present day; and, of all the editions of his writings we have seen none that pleases us so much as the "Damond."
